

EQUIPMENT DATA SHEET

TRN FPSO — Area 21 Separation System

Document: TRN-21-PA-2001A-Datasheet

Discipline: Rotating Equipment

Rev A | DM02 Training

1. Identification

Tag Number:	21-PA-2001A
Equipment Number:	EQ-1002
Service:	Crude Oil Export Pump
Manufacturer:	Flowserve
Model:	DMX 6x8-14
Serial Number:	SN-PA-44821

2. Performance

Rated Flow:	320 m3/h
Rated Head:	210 m
Rated Power:	250 kW
Design Pressure:	42 barg
Design Temperature:	120 degC
Dry Weight:	2850 kg

3. Construction / Materials

Pump Type:	Centrifugal, Horizontal Split Case
Casing Material:	ASTM A216 WCB
Seal Type:	Double Mechanical Seal API Plan 53B

4. Notes

- Hero tag for DM02 hands-on: 21-PA-2001A (export pump A).
- Rising bearing vibration and falling discharge flow explain work order WO-1001.
- This PDF uses vector text so ParseDatasheet can extract Rated Flow / Head / Power / etc.
